Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: The claims are allowable because the prior art does not teach or suggest a transparent sheet, a process of making the sheet, or an optical recording medium comprising the sheet where the transparent sheet comprises a cover film having a curable resin coat on one side and an adhesive formed on the other side and the sheet achieves the small thickness unevenness as disclosed. The closest prior art, US 2003/0081537, discloses a medium having an adhesive layer, a cover film, and a resin coat but does not show the thickness unevenness or the claimed method steps.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
